Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Currently employed as Chief Physician and Associate Professor by the First Affiliated Hospital of Fujian Medial University, Dr.Shi has 32 years of research, teaching, and clinical experience in oral and maxillofacial Surgery, with the expertise in synthetic serial treatment of oral and maxillofacial tumors, reconstruction of oral and maxillofacial organs, rehabilitation of facial trauma and maxillofacial deformities, orthognathic surgery and complex dental implantation.

Dr.Shi has published more than 60 papers on SCI and various top-tier Chinese medical journals, and is now actively driving and supervising various key research projects for several Fujian provincial science and technology departments. His focus of research includes application of digital imaging technology in oral and maxillofacial surgery, and correlation study of implant surface characteristics and tissue regeneration.
