			<input type="checkbox"/> Master	<input type="checkbox"/> Professional

### Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

As the director of the Department of Critical Care Medicine and the Department of Teaching and Research of Critical Care in our hospital, I am responsible for the medical safety, teaching, scientific research and administration of 37 beds in the Department of Critical Care in two districts of our hospital. We focus on sepsis and MODS, especially on pancreatitis and abdominal infection. We have a critical rehabilitation team and carry out airway care, aerosol therapy, oxygen therapy, pulmonary rehabilitation, pulmonary and diaphragm ultrasound assessment, mechanical ventilation and outpatient respiratory treatment work. Every year we held some training classes on respiratory therapy and abdominal infection field, we have formed a stable team of lecturers and a teaching knowledge system. My research has focused on ARDS and respiratory rehabilitation. Five graduate students have graduated, and there are still six students in the program.
