			<input type="checkbox"/> P.H.D/M.D	<input type="checkbox"/> Academic
			<input type="checkbox"/> Master	<input type="checkbox"/> Professional

Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

I have been engaged in radiology diagnosis in grade III general hospital for 30 years, and have rich clinical practice experience in whole body CT and MRI diagnosis, especially in CT and MRI diagnosis of digestive system tumor, MRI diagnosis of prostate cancer, and application of MRI-Resolve new technology. I have been engaged in the Radiodiagnostics teaching task of Digestive system and Acute abdomen in Fujian Medical University for many years, with many years of teaching experience. The department continues to conduct business learning and difficult case discussion every Thursday, with a strong learning atmosphere. The Radiology Department where I work is the unit of Fujian Radiology Imaging Quality Control Center, which owns Siemens 128 Row DSCT, Siemens Aanto1.5TMRI and other high-end large-scale imaging examination equipment, which can meet the needs of clinical, teaching and scientific research. I am currently serving as a member of infectious Diseases Group of Chinese Radiology Society and a standing member of Radiology Society of Fujian Medical Doctors Association. In the past five years, I have been presided over and participated in three fujian Provincial Innovation Projects and Fujian Provincial Natural Science Foundation projects, and won one Fujian Provincial Hospital Innovation Achievement Award. And I had published more than 20 papers as corresponding author and first author in SCI and domestic professional core journals.
