Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Chen Mingqiu, MD, PhD, Vice director of Department of Radiation Oncology, Fujian Cancer Hospital, Associate Professor of Fujian Medical University. He specializes in the care of patients with esophageal cancer, lung cancer, thymic cancer, mediastinal cancer and other Thoracic tumor. He used to be a doctoral fellow at the UF Genetics Institute and Visiting investigator at University of Florida Health Proton Therapy Institute. He is currently the editor of TMR Magazine and a contributing expert at BMC Cancer, Radiation Oncology, Aging, Cellular Oncology and other journals. Dr. Chen's research focuses on epigenetics studies on radiosensitivity of esophageal cancer, and to establish a model for radiosensitivity of esophageal cancer which is supported by National Natural Science Foundation of China. He has published more than 20 SCI-related academic papers, many of which have won international and provincial award for outstanding Papers. Some of these research results have won first prize of Fujian Provincial Science and Technology Progress Award (2019), Shanghai Science and Technology Progress Award (2020). At present, he is also the deputy secretary-general of the Expert Committee on Esophageal Cancer of China association of Gerontology and Geriatrics, members of the NPC Committee of the Fujian Anti-cancer Association, Oral Cancer Committee of the Fujian Cancer Prevention and Treatment Union, Director and Secretary of the Cancer Clinical Research Collaboration Branch of the Fujian Cancer Prevention and Treatment Science and Technology Exchange Association, and a member of the Precision Medicine Committee of the Fujian Cancer Prevention and Treatment Science and Technology Exchange Association.
