### Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Dr. Guo has been engaged in the clinical and basic research of head and neck cancer for 16 years, and has visited the Cancer Center of National University of Singapore in 2012. She is the vice chairman of the Youth Committee of the NPC Professional Committee of the China Anti cancer Association and member of the NPC Committee of China Anti cancer Association. Her main research directions including clinical staging study in nasopharyngeal carcinoma(NPC), the optimization of clinical target volume for intensity modulated radiotherapy in NPC, the optimization of treatment strategies for refractory NPC, and the molecular mechanism of the occurrence and development of NPC. She has published nearly 40 papers, of which 17 papers were published as the first/corresponding author, some of her results were invited by the annual meeting of the American Academy of Radiation Oncology for oral/poster presentations.
