Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Our team is currently committed to the basic and clinical research of urology, mainly including the following directions: 1. Molecular biological basis of prostate cancer 2. Molecular biological basis of urothelial carcinoma 3. Molecular biological basis of renal cell carcinoma and Research on minimally invasive diagnosis and treatment 4. Basic and clinical research on urinary calculi complicated with urosepticemia. In the past three years, our team has applied for 15 projects and published more than 20 SCI articles. As the first tutor, I have trained more than 40 postgraduates, including a foreign student, and 5 of them are studying. At the same time, I serve as a joint training tutor for doctoral students in the basic and clinical majors of urology at the Institute of Urology, Shenzhen University.
