Work Experience (工作经历)

Period (起止时间)	Institution/University, City, Country (国家/大学/机构/职称)
08, 2001—11, 2008	Resident Physician, Fujian Tumor Hospital, Fuzhou, China
12, 2018—11, 2014	Attending Physician, Fujian Tumor Hospital, Fuzhou, China
12, 2014—at present	Dputy Chief Physician, Fujian Tumor Hospital, Fuzhou, China

Education (教育背景)

When&where to obtain the highest degree (何时何校获最高学位及学历)

Period (起止时间)	University, City, Country (国家/大学/最高学位)
09, 2016—12, 2019	Doctor Degree, Nanjing Medical University, Nanjing City, China
09, 2004—06, 2007	Master Degree, Fujian Medical University, Fuzhou City, China

Overseas Experience 出国经历

including study, research and foreign aid (含留学、援外、研修)

Period (起止时间)	Institution/University, City, Country (国家/大学/机构/职称)
N/A	N/A

Major & Research Direction (招生专业及研究方向)

Displine Level I (一级学科)	Displine Level II&III (专业名称: 二科+三级学科)	Research Direction (研究方向及专长)	Level (层次)	Type (学位类型)
Clinical Medicine	Surgery(Cardiothoracic Surgery)	Basic and clinical study of thoracic tumors	<input type="checkbox"/> P.H.D/M.D	<input type="checkbox"/> Academic
			<input checked="" type="checkbox"/> Master	<input checked="" type="checkbox"/> Professional
			<input type="checkbox"/> P.H.D/M.D	<input type="checkbox"/> Academic
			<input type="checkbox"/> Master	<input type="checkbox"/> Professional

Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

My name is Shaofeng Lin. I graduated from the Fujian Medical University as an M.D. in 2001 and I started my career at Fujian Cancer Hospital until present day. I received my PhD from Nanjing Medical University in December 2019. Currently, I am the Deputy chief physician in the Department of Thoracic Surgery. My specialty is disease diagnosis and treatment in thoracic tumors, such as lung cancer, esophageal cancer and mediastinum tumor. I have performed various surgical operations and proficient with relevant techniques. In addition to conventional surgery, I also specialize in a variety of minimally invasive surgery, such as video-assisted thoracoscopic lobectomy/segmentectomy, video-assisted thoracoscopic combined with laparoscopic radical resection of esophageal cancer, video-assisted thoracoscopic resection of mediastinal tumors, etc.

I am also a biomedical researcher at Fujian Provincial Key Laboratory of Tumor Biotherapy, with publications in internationally-circulated professional medical journals, which have been cited numerous times. My future research will continue in investigating mechanisms of malignant tumors and potential targets for treatment, especially in the mechanism of histone methylation and tumorigenesis. And I am presiding over a provincial research about ferroptosis of esophageal squamous cell. I am also good at deciphering the complex clinical data analysis of oncology patients which effectively guided the therapeutic strategy.
