Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Dr Yuanmei Chen is an academic thoracic surgeon with a MD in Cardiothoracic Surgery. He operates at Fujian Medical University Cancer Hospital, China.

He is recognised as a pioneer of minimally invasive and robotic thoracic surgery in Fujian Province, China. After training in Australia in 2020 he

the first double AI program: robotic segmentectomy with pre-operative 3D re-construction of lung nodules at Fujian Medical University Cancer Hospital.

In 2016, he won a second prize with Uniportal Left Upper Tri-segmentecomy in Southeastern China. In 2020, as a co-author he won a first prize of Fujian Provincial Science and Technology Progress Award.
