Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

A surgeon has been working on emergency abdominal surgery for nearly 20 years. My research focus is on the diagnosis and treatment of intestinal obstruction. I have extensive clinical experience in acute abdominal work in general surgery. In addition, I have rich experience in clinical teaching and have trained many medical students and resident doctors. In the field of intestinal obstruction, our team has been exploring more advanced diagnostic and treatment methods, participating in several scientific research projects, and achieving certain results.
