Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Chen Jianping is the deputy head of the Skull Base Professional Group of Neurosurgery in Fujian Province, and a tutor for postgraduate students. He has been engaged in the treatment of skull base tumors and complex cerebrovascular diseases for a long time, especially complex skull base tumors and difficult aneurysm operations and participated in many national surgery competitions and won awards. At present, a number of subjects related to skull base tumors and cerebrovascular diseases are under research, and related research results have been published in many papers.
