### Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

I am the leader of the medical department, the deputy director of pediatric surgery and the director of Urology Department of Fujian children's Hospital. At the same time, I have many membership in social associations, such as the member of the urology group of pediatric surgery of the Chinese Medical Association, the standing member of group of pediatric minimally invasion for Urology and cardiothoracic surgery of China Maternal and Children's Health Association, an editorial board member of Chinese Journal of pediatric surgery etc. I have been engaged in basic and clinical research work for pediatric surgery for over 25 years and especially rich in experience in the treatment of complex malformations of urological and thoracic domain. I have been in Beijing Children's hospital, Japanese National University, Japanese National International Medical Research Center to proceed my surgical ability. My main research direction is the congenital malformation of pediatric urinary and thoracic diseases. At present I have three chinese students, who are in the process of the master's degree.
