			<input checked="" type="checkbox"/> Master	<input checked="" type="checkbox"/> Professional
			<input type="checkbox"/> P.H.D/M.D	<input type="checkbox"/> Academic
			<input type="checkbox"/> Master	<input type="checkbox"/> Professional

### Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

I am an orthopaedic surgeon of Fujian Provincial Hospital, one of the largest hospitals in our country. My department is one of the largest trauma center in the southeast of China where more than 1000 multiple trauma patients with orthopaedic injuries are treated every year. I have learned many new principles and skills of orthopaedic treatment, such as reconstruction of pelvic injuries and total knee arthroplasty and used these techniques for my patient care. I learnt a lot from my job during the past twenty years. I'm a member of the department of Surgery. I have been teaching students from overseas. Make students to form the clinical idea of surgery disease and create a solid foundation for further clinical work.
