Basic Medicine	Immunology	Antitumor immunity	<input type="checkbox"/> P.H.D/M.D	<input checked="" type="checkbox"/> Academic
			<input checked="" type="checkbox"/> Master	<input type="checkbox"/> Professional
			<input type="checkbox"/> P.H.D/M.D	<input type="checkbox"/> Academic
			<input type="checkbox"/> Master	<input type="checkbox"/> Professional

Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Mrs Li was born in 1991. She has long been engaged in the antitumor immunity. Immunotherapy has exhibited promising results in the treatment of advanced-stage cancer, however, only a small subset of patients benefit. The immunosuppressive tumor microenvironment (TME) is a major obstacle to immunotherapy. Dr. Li focuses on the immunosuppressive mechanisms in TME, and is devoted to find strategies to overcome immunosuppression. Dr. Li has published articles in 《Cancer Immunology Research》 and 《Journal of Medicinal Chemistry》. Dr. Li's present work was supported by grants from the National Natural Science Foundation of China (82104203), Natural Science Foundation of Fujian Province (2020J05054), Joint Funds for the innovation of science and Technology of Fujian Province (2020Y9049) and Funds for scientific research start-up of high-level talents of Fujian Medical University (XRCZX2019036). Dr. Li is proficient in a variety of experimental techniques, Institute of Immunotherapy provides superior experimental platforms for her
