Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Ye yuhong received her master degree in 2006 from the Department of Pathology, Peking University Health Science Center. Since then, she has been working in the Department of Pathology of the First Affiliated Hospital of Fujian Medical University, specializing in clinical pathological diagnosis. Now she is the associate chief physician, associate professor, master's supervisor and the head of the subspecialty of Obstetrics and Gynecology Pathology. In 2016 she went to the Obstetrics and Gynecology Hospital of Fudan University for further study. She focuses on the pathological diagnosis and research of gynecological and obstetric diseases and gastrointestinal and pancreatic neuroendocrine neoplasm.

Ye yuhong is engaged in teaching and research work of pathology. Her teaching courses involve pathology theory courses, internship courses, experimental courses to undergraduates and selective courses to graduate students. She used to be an undergraduate supervisor and successfully completed teaching tasks. In research field, she has hosted four research projects at school-level or departmental level and published more than 10 research papers, winning the third prize of Fujian Medical Science and Technology Award. Besides, she serves in several academic groups and is the member of Female Reproduction Group, Chinese Society of Pathology.
