Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)
I have focused on the pluripotent application of mesenchymal stem cells for more than ten years, and has rich experience in scientific research ideas and experimental design in this research field. I have mastered relevant experimental techniques, including animal model making, cell culture, flow cytometry, gene transfection, RT-PCR, Western blot and other experimental operations. I have presided over a number of fund projects and has published more than 20 relevant scientific research papers, including 5 papers included in SCI. At present, I am a master's supervisor and has the experience and qualification to guide graduate students.
