Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Pengli Zhu is the director of Fujian Provincial Hospital, Fujian Institute of clinical geriatrics, Fujian geriatrics center and Fujian Key Laboratory of geriatrics. He has been engaged in clinical, scientific research and teaching of cardiovascular disease, gerontology and geriatrics for over 30 years. He is a fellow of the American Association of Cardiovascular and Pulmonary Rehabilitation (AACVPR) and Chinese Heart Association (CHA). He completed a series of projects sponsored by National 863 plan, Natural Science Foundation and Fujian Provincial Department of science and technology. He has been honored with Fujian Medical Science and Technology Award for his study on cardiovascular risk and potential drug therapeutic targets in people with hypertension. He has published more than 100 papers in academic journals, and been leading the development of geriatric medicine in Fujian Province.
