Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Gen Lin is the Director of Department of Thoracic Oncology at the Fujian cancer Hospital, which is the cancer treatment center in Fujian Province in China. He also serve as President of the Professional Committee on lung cancer of Fujian anti-cancer Association. His main research interest focuses on biomarker and molecular targeted therapy in lung cancer. He have led and co-led multiple-center clinical studies, which address various aspects on management of advanced lung cancer, and basically have defined the current practice. He has contributed to over 60 articles in international peer-reviewed journals, including Annals of Oncology, Journal of Thoracic Oncology, Lung Cancer, and Frontiers in imunology, and published multiple editorials and textbooks. His work was recognised by numerous awards including Outstanding Contribution Award on lung cancer in 2019 in China.
