			<input type="checkbox"/> P.H.D/M.D	<input type="checkbox"/> Academic
			<input type="checkbox"/> Master	<input type="checkbox"/> Professional

Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

I have been engaged in Medical Oncology for 14 years, focusing on the diagnosis, treatment and research of gastrointestinal and respiratory tumors, especially the research on chemoresistance of small cell lung cancer. I studied in Southern Medical University for my doctor degree, doing research on chemoresistance of small cell lung cancer, and had published few SCI papers (two first authors). I like learning English very much, and hope to teach overseas students, growing up together with them.
