Personal Profile (基本情况简介)

(around 150 words, including basic introduction, research direction, teaching experience as supervisor for international students)

Dr. Libin Liu is an MD of the department of endocrinology at Union Hospital in Fujian Medical University. He had been an endocrinologist for near 30 years. He also is PhD from Shanghai Second Medical University. His research direction focuses on diabetes, thyroid disease and adrenal disease diagnosis and treatment. In recent years, he has published over 100 academic papers in SCI and national journals. He has presided over the research of the National Natural Science Foundation of China, the projects of the Ministry of Science and Technology of China, the key major projects of the Science and Technology Department of Fujian Province, the Natural Science Foundation of Fujian Province and other scientific research projects. Dr. Libin Liu is also a professor at the Fujian Medical University where she has been teaching overseas, international medical students for many years. He also has an abundance of experience with carrying out clinical trials as she joined several international multi-centered clinical trials as PI.
